

ANNUAL SYNAR REPORT

42 U.S.C. 300x-26

OMB No 0930-0222

FFY 2020

State: Idaho

BRAD LITTLE
GOVERNOR

June 6, 2019

Grants Management Officer
Office of Financial Resources, Division of Grants Management
Substance Abuse and Mental Health Services Administration
5600 Fishers Lane, Rm. 17E20
Rockville, MD 20857

Dear Grants Management Officer:

As the Governor of the State of Idaho, for the duration of my tenure, I delegate signatory authority to the current Director of the Idaho Department of Health and Welfare or any one officially acting in this role in the instance of a vacancy, for all transactions required to administer the Substance Abuse and Mental Health Services Administration (SAMHSA) Substance Abuse Prevention and Treatment Block Grant (SABG), Community Mental Health Services Block Grant (MHBG), and Projects for Assistance in Transition from Homelessness (PATH) Grant.

This delegation is effective immediately.

If you have any questions, please contact Jonathan Meyer at 208-334-6682 or via e-mail at Jonathan.Meyer@dhw.idaho.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Brad Little".

Brad Little
Governor of Idaho

c: Dave Jeppesen

Public Burden Statement: An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is 0930-0222. Public reporting burden for this collection of information is estimated to average 18 hours per respondent, per year, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to SAMHSA Reports Clearance Officer, 5600 Fishers Lane, Rockville, MD 20857.

INTRODUCTION

The Annual Synar Report (ASR) format provides the means for states to comply with the reporting provisions of the Public Health Service Act (42 U.S.C. 300x-26) and the Tobacco Regulation for the Substance Abuse Prevention and Treatment Block Grant (SABG) (45 C.F.R. 96.130 (e)).

How the Synar report helps the Center for Substance Abuse Prevention

In accordance with the tobacco regulations, states are required to provide detailed information on progress made in enforcing youth tobacco access laws (FFY 2019 Compliance Progress) and future plans to ensure compliance with the Synar requirements to reduce youth tobacco access rates (FFY 2020 Intended Use Plan). These data are required by 42 U.S.C. 300x-26 and will be used by the Secretary to evaluate state compliance with the statute. The information to be reported is public (45 CFR 96.130 (f)) and is not confidential. Part of the mission of the Center for Substance Abuse Prevention (CSAP) is to assist states¹ by supporting Synar activities and providing technical assistance helpful in determining the type of enforcement measures and control strategies that are most effective. This information is helpful to CSAP in improving technical assistance resources and expertise on enforcement efforts and tobacco control program support activities, including state Synar program support services, through an enhanced technical assistance program involving conferences and workshops, development of training materials and guidance documents, and onsite technical assistance consultation.

How the Synar report can help states

The information gathered for the Synar report can help states describe and analyze substate needs for program enhancements. These data can also be used to report to the state legislature and other state and local organizations on progress made to date in enforcing youth tobacco access laws when aggregated statistical data from state Synar reports can demonstrate to the Secretary the national progress in reducing youth tobacco access problems. This information will also provide Congress with a better understanding of state progress in implementing Synar, including state difficulties and successes in enforcing retailer compliance with youth tobacco access laws.

¹The term “state” is used to refer to all the states and territories required to comply with Synar as part of the Substance Abuse Prevention and Treatment Block Grant Program requirements (42 U.S.C. 300x-64 and 45 C.F.R. 96.121).

Getting assistance in completing the Synar report

If you have questions about programmatic issues, you may call CSAP's Division of State Programs at (240) 276-2550 and ask for your respective State Project Officer, or contact your State Project Officer directly by telephone or email. If you have questions about fiscal or grants management issues, you may call the Grants Management Officer, Office of Financial Resources, Division of Grants Management, at (240) 276-1422.

Where and when to submit the Synar report

The ASR must be received by SAMHSA no later than December 31, 2019 and must be submitted in the format specified by these instructions. Use of the approved format will avoid delays in the review and approval process. The chief executive officer (or an authorized designee) of the applicant organization must sign page one of the ASR certifying that the state has complied with all reporting requirements.

The state must upload one copy of the ASR using the online WebBGAS (Block Grant Application System). In addition, the following items must be uploaded to WebBGAS:

- FFY 2020 Synar Survey Results: States that use the Synar Survey Estimation System (SSES) must upload one copy of *SSES Tables 1–8* (in Excel) to WebBGAS. **Please note that, beginning with the FFY 2019 ASR, SSES will generate Tables 6, 7, and 8, which are based on the optional microdata on product type, retail outlet type, and whether identification was requested. If your state does not submit these optional data, Tables 6, 7, and 8 will be blank. Tables 6, 7, and 8 are generated for the convenience of the state, and states are not required to submit completed versions of Tables 6, 7, or 8.** States that do not use SSES must upload one copy of ASR Forms 1, 4, and 5, and Forms 2 and 3, if applicable, (in Excel), as well as a database with the raw inspection data to WebBGAS.
- Synar Inspection Form: States must upload one blank copy of the inspection form used to record the result of each Synar inspection.
- Synar Inspection Protocol: States must upload a copy of the protocol used to train inspection teams on conducting and reporting the results of the Synar inspections. This document should be different than the Appendix C attached to the Annual Synar Report.
- A scanned copy of the signed Funding Agreements/Certifications

Each state SSA Director has been emailed a login ID and password to log onto the Synar section of the WebBGAS site.

FFY 2020: FUNDING AGREEMENTS/CERTIFICATIONS

The following form must be signed by the Chief Executive Officer or an authorized designee and submitted with this application. Documentation authorizing a designee must be attached to the application.

PUBLIC HEALTH SERVICES ACT AND SYNAR AMENDMENT

42 U.S.C. 300x-26 requires each state to submit an annual report of its progress in meeting the requirements of the Synar Amendment and its implementing regulation (45 C.F.R. 96.130) to the Secretary of the Department of Health and Human Services. By signing below, the chief executive officer (or an authorized designee) of the applicant organization certifies that the state has complied with these reporting requirements and the certifications as set forth below.

SYNAR SURVEY SAMPLING METHODOLOGY

The state certifies that the Synar survey sampling methodology on file with the Center for Substance Abuse Prevention and submitted with the Annual Synar Report for FFY 2020 is up-to-date and approved by the Center for Substance Abuse Prevention.

SYNAR SURVEY INSPECTION PROTOCOL

The state certifies that the Synar Survey Inspection Protocol on file with the Center for Substance Abuse Prevention and submitted with the Annual Synar Report for FFY 2020 is up-to-date and approved by the Center for Substance Abuse Prevention.

State: Idaho

Name of Chief Executive Officer or Designee: Dave Jeppesen

Signature of CEO or Designee:

Title: Director, Idaho Department of Health & Welfare

Date Signed:

If signed by a designee, a copy of the designation must be attached.

SECTION I: FFY 2019 (Compliance Progress)**YOUTH ACCESS LAWS, ACTIVITIES, AND ENFORCEMENT**

42 U.S.C. 300x-26 requires the states to report information regarding the sale/distribution of tobacco products to individuals under age 18.

1. Please indicate any changes or additions to the state tobacco statute(s) relating to youth access since the last reporting year. If any changes were made to the state law(s) since the last reporting year, please upload a copy of the state law to WebBGAS. (see 42 U.S.C. 300x-26.)

- a. Has there been a change in the minimum sale age for tobacco products?

☐ Yes ☒ No

If Yes, current minimum age: ☐ 19 ☐ 20 ☐ 21 ☐ Other (Please specify.) _____

- b. Have there been any changes in state law that impact the state's protocol for conducting Synar inspections?

☐ Yes ☒ No

If Yes, indicate change. (Check all that apply.)

- ☐ Changed to require that law enforcement conduct inspections of tobacco outlets
☐ Changed to make it illegal for youth to possess, purchase or receive tobacco
☐ Changed to require ID to purchase tobacco
☐ Changed definition of tobacco products
☐ Other change(s) (Please describe.) _____

- c. Have there been any changes in state law that impact the following?

Licensing of tobacco vendors ☐ Yes ☒ No

Penalties for sales to minors ☐ Yes ☒ No

Vending machines ☐ Yes ☒ No

Added product categories to youth access law ☐ Yes ☒ No

2. Describe how the Annual Synar Report (see 45 C.F.R. 96.130(e)) was made public within the state prior to submission of the ASR. (Check all that apply.)

☒ Placed on file for public review

☒ Posted on a state agency Web site (Please provide exact Web address and the date when the FFY 2020 ASR was posted to this Web address.)

Web address: www.preventthesale.com and
https://healthandwelfare.idaho.gov/Medical/SubstanceUseDisorders/IdahoTobaccoProject/tabid/759/Default.aspx

Date published: December 2, 2019

- ☐ Notice published in a newspaper or newsletter
- ☐ Public hearing
- ☐ Announced in a news release, a press conference, or discussed in a media interview
- ☐ Distributed for review as part of the SABG application process
- ☐ Distributed through the public library system
- ☐ Published in an annual register
- ☐ Other *(Please describe.)* _____

3. Identify the following agency or agencies (see 42 U.S.C. 300x-26 and 45 C.F.R. 96.130).

a. The state agency(ies) designated by the Governor for oversight of the Synar requirements:

Idaho Department of Health and Welfare

Has this changed since last year's Annual Synar Report?

☐ Yes ☒ No

b. The state agency(ies) responsible for conducting random, unannounced Synar inspections:

Idaho Department of Health and Welfare

Has this changed since last year's Annual Synar Report?

☐ Yes ☒ No

c. The state agency(ies) responsible for enforcing youth tobacco access law(s):

Idaho Department of Health and Welfare

Has this changed since last year's Annual Synar Report?

☐ Yes ☒ No

4. Identify the following agencies and describe their relationship with the agency responsible for the oversight of the Synar requirements.

a. Identify the state agency responsible for tobacco prevention activities (the agency that receives the Centers for Disease Control and Prevention's National Tobacco Control Program funding).

Idaho Department of Health and Welfare

b. Has the responsible agency changed since last year's Annual Synar Report?

☐ Yes ☒ No

c. Describe the coordination and collaboration that occur between the agency responsible for tobacco prevention and the agency responsible for oversight of the Synar requirements. (Check all that apply.) The two agencies

☒ Are the same

- ☐ Have a formal written memorandum of agreement
- ☐ Have an informal partnership
- ☐ Conduct joint planning activities
- ☐ Combine resources
- ☐ Have other collaborative arrangement(s) *(Please describe.)* _____
- ☐ No relationship

d. Does a state agency contract with the Food and Drug Administration's Center for Tobacco Products (FDA/CTP) to enforce the youth access and advertising restrictions in the Family Smoking Prevention and Tobacco Control Act?

- ☐ Yes ☒ No (if no, go to Question 5)

e. If yes, identify the state agency responsible for enforcing the youth access and advertising restrictions in the Family Smoking Prevention and Tobacco Control Act (the agency that is under contract to the Food and Drug Administration's Center for Tobacco Products (FDA/CTP)).

f. Has the responsible agency changed since last year's Annual Synar Report?

- ☐ Yes ☐ No

g. Describe the coordination and collaboration that occur between the agency contracted with the FDA to enforce federal youth tobacco access laws and the agency responsible for oversight of the Synar requirements. (Check all that apply.) The two agencies:

- ☐ Are the same
- ☐ Have a formal written memorandum of agreement
- ☐ Have an informal partnership
- ☐ Conduct joint planning activities
- ☐ Combine resources
- ☐ Have other collaborative arrangement(s) *(Please describe.)* _____
- ☐ No relationship

h. Does the state use data from the FDA enforcement inspections for Synar survey reporting?

- ☐ Yes ☐ No

5. Please answer the following questions regarding the state's activities to enforce the state's youth access to tobacco law(s) in FFY 2019 (see 42 U.S.C. 300x-26 and 45 C.F.R. 96.130(e)).

a. Which one of the following describes the enforcement of state youth access to tobacco laws carried out in your state? (Check one category only.)

- ☐ Enforcement is conducted exclusively by local law enforcement agencies.
☒ Enforcement is conducted exclusively by state agency(ies).
☐ Enforcement is conducted by both local *and* state agencies.

b. The following items concern penalties imposed for all violations of state youth access to tobacco laws by LOCAL AND/OR STATE LAW ENFORCEMENT AGENCIES (this does not include enforcement of local laws or federal youth tobacco access laws). Please fill in the number requested. If state law does not allow for an item, please mark "NA" (not applicable). If a response for an item is unknown, please mark "UNK." The chart must be filled in completely.

PENALTY	OWNERS	CLERKS	TOTAL
Number of citations issued	113	112	225
Number of fines assessed	32	112	144
Number of permits/licenses suspended	0		0
Number of permits/licenses revoked	0		0
Other (Please describe.)	N/A	N/A	N/A

c. Are citations or warnings issued to retailers or clerks who sell tobacco to minors for inspections that are part of the Synar survey?

- ☒ Yes ☐ No

If "Yes" to 5c, please describe the state's procedure for minimizing risk of bias to the survey results from retailers alerting each other to the presence of the survey teams:

The state conducts inspections throughout the year and citations are issued to clerks each time a sale occurs. The Synar inspections represent a subset of all inspections performed in each year. The issuance of citations of sales is the standard operating procedure.

Idaho tobacco inspections are commonplace. Each business is inspected at least once a year. When there is a violation, citations are issued at the time of the sale as a matter of standard practice defined by the Department of Health and Welfare. When no violation is noted during an inspection, businesses are notified of the inspection results by mail within 2 business days. This has been the practice since the late 1990s. Tobacco retailers have demonstrated a generally stable level of compliance with the prohibitions outlined by state law, as measured by the annual Synar survey. Given that most inspections result in no-sales and there is no immediate indication that an inspection has occurred, the likelihood of a bias is reduced. In combination with Idaho's many small communities, its simple random

sample and lower retailer violation rate, the impact of possible biasing methods has been deemed to be nominal.

d. Which one of the following best describes the level of enforcement of state youth access to tobacco laws carried out in your state? (Check one category only.)

- ☐ Enforcement is conducted only at those outlets randomly selected for the Synar survey.
- ☐ Enforcement is conducted only at a subset of outlets not randomly selected for the Synar survey.
- ☒ Enforcement is conducted at a combination of outlets randomly selected for the Synar survey and outlets not randomly selected for the Synar survey.

e. Did every tobacco outlet in the state receive at least one compliance check that included enforcement of the state youth tobacco access law(s) in the last year?

☒ Yes ☐ No

f. What additional activities are conducted in your state to support enforcement and compliance with state youth tobacco access law(s)? (Check all that apply and briefly describe each activity in the text boxes below each activity.)

☒ Merchant education and/or training

The state provides a website describing the requirements and prohibitions found in state law. Additionally, a monthly newsletter aimed at promoting compliance is distributed to all permitted outlets and point of sale and employee education resources are provided to permittees.

☐ Incentives for merchants who are in compliance (e.g., nonenforcement compliance checks in which compliant retailers are given positive reinforcement and noncompliant retailers are warned about youth access laws)

☐ Community education regarding youth access laws

☐ Media use to publicize compliance inspection results

☐ Community mobilization to increase support for retailer compliance with youth access laws

☐ Other activities (Please list.) _____

SYNAR SURVEY METHODS AND RESULTS

The following questions pertain to the survey methodology and results of the Synar survey used by the state to meet the requirements of the Synar Regulation in FFY 2019 (*see 42 U.S.C. 300x-26 and 45 C.F.R. 96.130*).

6. Has the sampling methodology changed from the previous year?

☐ Yes ☒ No

The state is required to have an approved up-to-date description of the Synar sampling methodology on file with CSAP. Please submit a copy of your Synar Survey Sampling Methodology (Appendix B). If the sampling methodology changed from the previous reporting year, these changes must be reflected in the methodology submitted.

a. If yes, describe how and when this change was communicated to SAMHSA

7. Please answer the following questions regarding the state's annual random, unannounced inspections of tobacco outlets (*see 45 C.F.R. 96.130(d)(2)*).

a. Did the state use the optional Synar Survey Estimation System (SSES) to analyze the Synar survey data?

☒ Yes ☐ No

If Yes, upload a copy of SSES tables 1–8 (in Excel) to WebBGAS. Then go to Question 8. If No, continue to Question 7b.

b. Report the weighted and unweighted Retailer Violation Rate (RVR) estimates, the standard error, accuracy rate (number of eligible outlets divided by the total number of sampled outlets), and completion rate (number of eligible outlets inspected divided by the total number of eligible outlets).

Unweighted RVR

Weighted RVR

Standard error (s.e.) of the (weighted) RVR

Fill in the blanks to calculate the right limit of the right-sided 95% confidence interval.

	+	(1.645	×)	=	
RVR Estimate	plus	(1.645	times	Standard Error)	equals	Right Limit

Accuracy rate

Completion rate

c. **Fill out Form 1 (See Appendix A: Forms 1–5 Templates).** *(Required regardless of the sample design.)*

d. **How were the (weighted) RVR estimate and its standard error obtained?**
(Check the one that applies.)

- ☐ Form 2 (Optional) (See Appendix A: Forms 1–5 Templates) *(Attach completed Form 2.)*
- ☐ Other *(Please specify. Provide formulas and calculations or attach and explain the program code and output with description of all variable names.)*

e. **If stratification was used, did any strata in the sample contain only one outlet or cluster this year?**

- ☐ Yes ☐ No ☐ No stratification

If Yes, explain how this situation was dealt with in variance estimation.

f. **Was a cluster sample design used?**

- ☐ Yes ☐ No

If Yes, fill out and attach Form 3 (See Appendix A: Forms 1–5 Templates), and answer the following question.

If No, go to Question 7g.

Were any certainty primary sampling units selected this year?

- ☐ Yes ☐ No

If Yes, explain how the certainty clusters were dealt with in variance estimation.

g. **Report the following outlet sample sizes for the Synar survey.**

	Sample Size
Effective sample size (sample size needed to meet the SAMHSA precision requirement assuming simple random sampling)	
Target sample size (the product of the effective sample size and the design effect)	
Original sample size (inflated sample size of the target sample to counter the sample attrition due to ineligibility and noncompletion)	
Eligible sample size (number of outlets found to be eligible in the sample)	
Final sample size (number of eligible outlets in the sample for which an inspection was completed)	

h. **Fill out Form 4 (See Appendix A: Forms 1–5 Templates).**

8. Did the state's Synar survey use a list frame?

☒ Yes ☐ No

If Yes, answer the following questions about its coverage.

a. The calendar year of the latest Sampling frame coverage study: 2019

b. Percent coverage from the latest Sampling frame coverage study: 97.9%

c. Was a new study conducted in this reporting period?

☒ Yes ☐ No

If Yes, please complete Appendix D (List Sampling Frame Coverage Study) and submit it with the Annual Synar Report.

d. The calendar year of the next coverage study planned: 2022

9. Has the Synar survey inspection protocol changed from the previous year?

☐ Yes ☒ No

The state is required to have an approved up-to-date description of the Synar inspection protocol on file with CSAP. Please submit a copy of your Synar Survey Inspection Protocol (Appendix C). If the inspection protocol changed from the previous year, these changes must be reflected in the protocol submitted.

a. If Yes, describe how and when this change was communicated to SAMHSA

b. Provide the inspection period: From 02/16/2019 to 06/23/2019
MM/DD/YY MM/DD/YY

c. Provide the number of youth inspectors used in the current inspection year:

13

NOTE: If the state uses SSES, please ensure that the number reported in 9c matches that reported in SSES Table 4, or explain any difference.

d. Fill out and attach Form 5 in Appendix A (Forms 1–5). (Not required if the state used SSES to analyze the Synar survey data.)

SECTION II: FFY 2020 (Intended Use):

Public Law 42 U.S.C. 300x-26 of the Public Health Service Act and 45 C.F.R. 96.130 (e) (4, 5) require that the states provide information on future plans to ensure compliance with the Synar requirements to reduce youth tobacco access.

1. In the upcoming year, does the state anticipate any changes in:

Synar sampling methodology ☐ Yes ☒ No
Synar inspection protocol ☐ Yes ☒ No

If changes are made in either the Synar sampling methodology or the Synar inspection protocol, the state is required to obtain approval from CSAP prior to implementation of the change and file an updated Synar Survey Sampling Methodology (Appendix B) or an updated Synar Survey Inspection Protocol (Appendix C), as appropriate.

2. Please describe the state's plans to maintain and/or reduce the target rate for Synar inspections to be completed in FFY 2020. Include a brief description of plans for law enforcement efforts to enforce youth tobacco access laws, activities that support law enforcement efforts to enforce youth tobacco access laws, and any anticipated changes in youth tobacco access legislation or regulation in the state.

Law Enforcement:

The State will continue to conduct inspections of tobacco retailers throughout the year in compliance with state law 39-5701 et seq.

Retailer Education:

The State creates and distributes a monthly Tobacco Retailer Newsletter and has an education website specifically designed for Idaho tobacco retailers.

Support of Enforcement and Youth Tobacco Access Laws:

No activities in this area are planned.

Changes in Youth Tobacco Access Legislation:

No activities in this area are planned.

3. Describe any challenges the state faces in complying with the Synar regulation. (Check all that apply and describe each challenge in the text box below it.)

☐ a. Limited resources for law enforcement of youth access laws

☐ b. Limited resources for activities to support enforcement and compliance with youth tobacco access laws

☐ c. Limitations in the state youth tobacco access laws

- ☐ d. Limited public support for enforcement of youth tobacco access laws
- ☐ e. Limitations on completeness/accuracy of list of tobacco outlets
- ☐ f. Limited expertise in survey methodology
- ☐ g. Laws/regulations limiting the use of minors in tobacco inspections
- ☐ h. Difficulties recruiting youth inspectors
- ☐ i. Issues regarding the balance of inspections conducted by youth inspectors age 15 and under
- ☐ j. Issues regarding the balance of inspections conducted by one gender of youth inspectors
- ☒ k. Geographic, demographic, and logistical considerations in conducting inspections

Geographic and logistical considerations - Idaho is a large, mountainous state and travel is often restricted by inclement weather. Distance, weather, and inspection team availability can increase the cost of inspecting remote areas. The state evaluates State Code and Synar requirements to identify opportunities for efficiency.
- ☐ l. Cultural factors (e.g., language barriers, young people purchasing for their elders)
- ☐ m. Issues regarding sources of tobacco under tribal jurisdiction
- ☐ n. Other challenges (*Please list.*)

APPENDIX A: FORMS 1–5 TEMPLATES

FORM 1 (Required for all states not using the Synar Survey Estimation System (SSES) to analyze the Synar Survey data)

Complete Form 1 in **Excel** to report sampling frame and sample information and to calculate the unweighted retailer violation rate (RVR) using results from the current year's Synar survey inspections.

Instructions for Completing Form 1: In the top right-hand corner of the **Excel** form, provide the state name and reporting federal fiscal year (FFY 2020). Provide the remaining information by stratum if stratification was used. Make copies of the form if additional rows are needed to list all the strata.

Column 1: *If stratification was used:*

- 1(a) Sequentially number each row.
- 1(b) Write in the name of each stratum. All strata in the state must be listed.

If no stratification was used:

- 1(a) Leave blank.
- 1(b) Write "state" in the first row (indicates that the whole state is a single stratum).

Note for unstratified samples: For Columns 2–5, wherever the instruction refers to "each stratum," report the specified information for the state as a whole.

- Column 2: 2(a) Report the number of over-the-counter (OTC) outlets in the sampling frame in each stratum.
- 2(b) Report the number of vending machine (VM) outlets in the sampling frame in each stratum.
- 2(c) Report the combined total of OTC and VM outlets in the sampling frame in each stratum.

- Column 3: 3(a) Report the estimated number of eligible OTC outlets in the OTC outlet population in each stratum.
- 3(b) Report the estimated number of eligible VM outlets in the VM outlet population in each stratum.
- 3(c) Report the combined total estimated number of eligible OTC and VM outlets in the total outlet population in each stratum.

The estimates for Column 3 can be obtained from the Synar survey sample as the weighted sum of eligible outlets by outlet type.

- Column 4: 4(a) Report the number of eligible OTC outlets for which an inspection was completed, for each stratum.
- 4(b) Report the numbers of eligible VM outlets for which an inspection was completed, for each stratum.
- 4(c) Report the combined total of eligible OTC and VM outlets for which an inspection was completed, for each stratum.

- Column 5: 5(a) Report the number of OTC outlets found in violation of the law as a result of completed inspections, for each stratum.
- 5(b) Report the number of VM outlets found in violation of the law as a result of completed inspections, for each stratum.
- 5(c) Report the combined total of OTC and VM outlets found in violation of the law as a result of completed inspections, for each stratum.

Totals: For each subcolumn (a–c) in Columns 2–5, provide totals for the state as a whole in the last row of the table. These numbers will be the sum of the numbers in each row for the respective column.

FORM 2 (Optional)

Appropriate for stratified simple or systematic random sampling designs.

Complete Form 2 in **Excel** to calculate the weighted RVR. This table (in Excel form) is designed to calculate the weighted RVR for stratified simple or systematic random sampling designs, accounting for ineligible outlets and noncomplete inspections encountered during the annual Synar survey.

Instructions for Completing Form 2: In the top right-hand corner of the **Excel** form, provide the state name and reporting federal fiscal year (FFY 2020).

- Column 1: Write in the name of each stratum into which the sample was divided. These should match the strata reported in Column 1(b) of Form 1.
- Column 2: Report the number of outlets in the sampling frame in each stratum. These numbers should match the numbers reported for the respective strata in Column 2(c) of Form 1.
- Column 3: Report the original sample size (the number of outlets originally selected, *including* substitutes or replacements) for each stratum.
- Column 4: Report the number of sample outlets in each stratum that were found to be eligible during the inspections. Note that this number must be less than or equal to the number reported in Column 3 for the respective strata.
- Column 5: Report the number of eligible outlets in each stratum for which an inspection was completed. Note that this number must be less than or equal to the number reported in Column 4. These numbers should match the numbers reported in Column 4(c) of Form 1 for the respective strata.
- Column 6: Report the number of eligible outlets inspected in each stratum that were found in violation. These numbers should match the numbers reported in Column 5(c) of Form 1 for the stratum.
- Column 7: Form 2 (in Excel form) will automatically calculate the stratum RVR for each stratum in this column. This is calculated by dividing the number of inspected eligible outlets found in violation (Column 6) by the number of inspected eligible outlets (Column 5). The state unweighted RVR will be shown in the Total row of Column 7.
- Column 8: Form 2 (in Excel form) will automatically calculate the estimated number of eligible outlets in the population for each stratum. This calculation is made by multiplying the number of outlets in the sampling frame (Column 2) times the number of eligible outlets (Column 4) divided by the original sample size (Column 3). Note that these numbers will be less than or equal to the numbers in Column 2.
- Column 9: Form 2 (in Excel form) will automatically calculate the relative stratum weight by dividing the estimated number of eligible outlets in the population for each stratum in Column 8 by the Total of the values in Column 8.
- Column 10: Form 2 (in Excel form) will automatically calculate each stratum's contribution to the state weighted RVR by multiplying the stratum RVR (Column 7) by the relative stratum weight (Column 9). The weighted RVR for the state will be shown in the Total row of Column 10.
- Column 11: Form 2 (in Excel form) automatically calculates the standard error of each stratum's RVR (Column 7). The standard error for the state weighted RVR will be shown in the Total row of Column 11.
- TOTAL:** For Columns 2–6, Form 2 (in Excel form) provides totals for the state as a whole in the last row of the table. For Columns 7–11, it calculates the respective statistic for the state as a whole.

Calculation of Weighted Retailer Violation Rate	
State:	
FFY: 2020	

[illegible]

N - number of outlets in sampling frame
n - original sample size (number of outlets in the original sample)
n1 - number of sample outlets that were found to be eligible
n2 - number of eligible outlets that were inspected
x - number of inspected outlets that were found in violation
p - stratum retailer violation rate ($p=x/n2$)
N' - estimated number of eligible outlets in population ($N'=N*n1/n$)
w - relative stratum weight ($w=N'/\text{Total Column 8}$)
pw - stratum contribution to the weighted RVR
s.e. - standard error of the stratum RVR

FORM 3 (Required when a cluster design is used for all states not using the Synar Survey Estimation System [SSES] to analyze the Synar survey data.)

Complete Form 3 **in Excel** to report information about primary sampling units when a cluster design was used for the Synar survey.

Instructions for Completing Form 3: In the top right-hand corner of the **Excel** form, provide the state name and reporting federal fiscal year (FFY 2020).

Provide information by stratum if stratification was used. Make copies of the form if additional rows are needed to list all the strata.

Column 1: Sequentially number each row.

Column 2: *If stratification was used:* Write in the name of stratum. All strata in the state must be listed.

If no stratification was used: Write “state” in the first row to indicate that the whole state constitutes a single stratum.

Column 3: Report the number of primary sampling units (PSUs) (i.e., first-stage clusters) created for each stratum.

Column 4: Report the number of PSUs selected in the original sample for each stratum.

Column 5: Report the number of PSUs in the final sample for each stratum.

TOTALS: For Columns 3–5, provide totals for the state as a whole in the last row of the table.

Summary of Clusters Created and Sampled				
State: _____				
FFY: 2020				
(1) Row #	(2) Stratum Name	(3) Number of PSUs Created	(4) Number of PSUs Selected	(5) Number of PSUs in the Final Sample
Total				

FORM 4 (Required for all states not using the Synar Survey Estimation System [SSES] to analyze the Synar Survey data)

Complete Form 4 in **Excel** to provide detailed tallies of ineligible sample outlets by reasons for ineligibility and detailed tallies of eligible sample outlets with noncomplete inspections by reasons for noncompletion.

Instructions for Completing Form 4: In the top right-hand corner of the **Excel** form, provide the state name and reporting federal fiscal year (FFY 2020).

Column 1(a): Enter the number of sample outlets found ineligible for inspection by reason for ineligibility. Provide the total number of ineligible outlets in the row marked "Total."

Column 2(a): Enter the number of eligible sample outlets with noncomplete inspections by reason for noncompletion. Provide the total number of eligible outlets with noncomplete inspections in the row marked "Total."

Inspection Tallies by Reason of Ineligibility or Noncompletion State: _____ FFY: 2020			
(1) INELIGIBLE		(2) ELIGIBLE	
Reason for Ineligibility	(a) Counts	Reason for Noncompletion	(a) Counts
Out of business		In operation but closed at time of visit	
Does not sell tobacco products		Unsafe to access	
Inaccessible by youth		Presence of police	
Private club or private residence		Youth inspector knows salesperson	
Temporary closure		Moved to new location	
Unlocatable		Drive-thru only/youth inspector has no driver's license	
Wholesale only/Carton sale only		Tobacco out of stock	
Vending machine broken		Ran out of time	
Duplicate		Other noncompletion reason(s) <i>(Describe.)</i>	
Other ineligibility reason(s) <i>(Describe.)</i>			
Total		Total	

FORM 5 (Required for all states not using the Synar Survey Estimation System [SSES] to analyze the Synar survey data)

Complete Form 5 in **Excel** to show the distribution of outlet inspection results by age and gender of the youth inspectors.

Instructions for Completing Form 5: In the top right-hand corner of the **Excel** form, provide the state name and reporting federal fiscal year (FFY 2020).

Column 1: Enter the number of attempted buys by youth inspector age and gender.

Column 2: Enter the number of successful buys by youth inspector age and gender.

If the inspectors are age eligible but the gender of the inspector is unknown, include those inspections in the “Other” row. Calculate subtotals for males and females in rows marked “Male Subtotal” and “Female Subtotal.” Sum subtotals for Male, Female, and Other and record in the bottom row marked “Total.” Verify that that the total of attempted buys and successful buys equals the total for Column 4(c) and Column 5(c), respectively, on Form 1. If the totals do not match, please explain any discrepancies.

Synar Survey Inspector Characteristics

APPENDIXES B & C: FORMS

Instructions

Appendix B (Sampling Design) and Appendix C (Inspection Protocol) are to reflect the state's CSAP-approved sampling design and inspection protocol. These appendixes, therefore, should generally describe the design and protocol and, with the exception of Question #10 of Appendix B, are not to be modified with year-specific information. Please note that any changes to either appendix must receive CSAP's advance, written approval. To facilitate the state's completion of this section, simply cut and paste the previously approved sampling design (Appendix B) and inspection protocol (Appendix C) and respond to Question #10 of Appendix B to provide the requested information about sample size calculations for the Synar survey conducted in FFY 2019.

APPENDIX B: SYNAR SURVEY SAMPLING METHODOLOGY

State: Idaho
FFY: 2020

1. What type of sampling frame is used?

- ☒ List frame *(Go to Question 2.)*
☐ Area frame *(Go to Question 3.)*
☐ List-assisted area frame *(Go to Question 2.)*

2. List all sources of the list frame. Indicate the type of source from the list below. Provide a brief description of the frame source. Explain how the lists are updated (method), including how new outlets are identified and added to the frame. In addition, explain how often the lists are updated (cycle). *(After completing this question, go to Question 4.)*

Use the corresponding number to indicate Type of Source in the table below.

- | | |
|---|--|
| 1 – Statewide commercial business list | 4 – Statewide retail license/permit list |
| 2 – Local commercial business list | 5 – Statewide liquor license/permit list |
| 3 – Statewide tobacco license/permit list | 6 – Other |

Name of Frame Source	Type of Source	Description	Updating Method and Cycle
Idaho Tobacco Permit Database (ITPD)	3	Idaho law requires all businesses that sell tobacco to obtain a permit from the Idaho Department of Health and Welfare	The ITPD is updated throughout the year through renewals by mail, phone and Internet, and as new businesses open.

3. If an area frame is used, describe how area sampling units are defined and formed.

a. Is any area left out in the formation of the area frame?

☐ Yes ☐ No

If Yes, what percentage of the state's population is not covered by the area frame?
 _____%

4. Federal regulation requires that vending machines be inspected as part of the Synar survey. Are vending machines included in the Synar survey?

☐ Yes ☒ No

If **No**, please indicate the reason(s) they are not included in the Synar survey. Please check all that apply.

- ☒ State law bans vending machines.
- ☐ State law bans vending machines from locations accessible to youth.
- ☐ State has a contract with the FDA and is actively enforcing the vending machine requirements of the Family Smoking Prevention and Tobacco Control Act.
- ☐ Other (Please describe.) _____

If **Yes**, please indicate how likely it is that vending machines will be sampled.

- ☐ Vending machines are sampled separately to ensure vending machines are included in the sample
- ☐ Vending machines are sampled together with over the counter outlets, so it is possible that no vending machines were sampled, however they are included in the sampling frame and have a non-zero probability of selection
- ☐ Other reasons (Please describe.) _____

5. Which category below best describes the sample design? (Check only one.)

- ☐ **Census** (STOP HERE: Appendix B is complete.)

Unstratified statewide sample:

- ☒ Simple random sample (Go to Question 9.)
- ☐ Systematic random sample (Go to Question 6.)
- ☐ Single-stage cluster sample (Go to Question 8.)
- ☐ Multistage cluster sample (Go to Question 8.)

Stratified sample:

- ☐ Simple random sample (Go to Question 7.)
- ☐ Systematic random sample (Go to Question 6.)
- ☐ Single-stage cluster sample (Go to Question 7.)
- ☐ Multistage cluster sample (Go to Question 7.)
- ☐ **Other** (Please describe and go to Question 9.) _____

6. Describe the systematic sampling methods. (After completing Question 6, go to Question 7 if stratification is used. Otherwise go to Question 9.)

7. Provide the following information about stratification.

a. Provide a full description of the strata that are created.

b. Is clustering used within the stratified sample?

- ☐ **Yes** (Go to Question 8.)
- ☐ **No** (Go to Question 9.)

8. Provide the following information about clustering.

- a. **Provide a full description of how clusters are formed.** *(If multistage clusters are used, give definitions of clusters at each stage.)*

- b. **Specify the sampling method (simple random, systematic, or probability proportional to size sampling) for each stage of sampling and describe how the method(s) is (are) implemented.**

9. Provide the following information about determining the Synar Sample.

- a. **Was the Synar Survey Estimation System (SSES) used to calculate the sample size?**

☒ **Yes** *(Respond to part b.)*

☐ **No** *(Respond to part c and Question 10c.)*

- b. **SSES Sample Size Calculator used?**

☒ **State Level** *(Respond to Question 10a.)*

☐ **Stratum Level** *(Respond to Question 10a and 10b.)*

- c. **Provide the formulas for determining the effective, target, and original outlet sample sizes.**

10. Provide the following information about sample size calculations for the Synar survey conducted in FFY 2019.

- a. **If the state uses the sample size formulas embedded in the SSES Sample Size Calculator to calculate the state level sample size, please provide the following information:**

Inputs for Effective Sample Size:

RVR: 10%

Frame Size: 1343

Input for Target Sample Size:

Design Effect: 1.0

Inputs for Original Sample Size:

Safety Margin: 25%

Accuracy (Eligibility) Rate: 94.20%

Completion Rate: 93.23%

- b. If the state uses the sample size formulas embedded in the SSES Sample Size Calculator to calculate the stratum level sample sizes, please provide the stratum level information:**

--

- c. If the state does not use the sample size formulas embedded in the SSES Sample Size Calculator, please provide all inputs required to calculate the effective, target, and original sample sizes as indicated in Question 9.**

--

APPENDIX C: SYNAR SURVEY INSPECTION PROTOCOL SUMMARY

State: Idaho

FFY: 2020

Note: Upload to WebBGAS a copy of the Synar inspection form under the heading "Synar Inspection Form" and a copy of the protocol used to train inspection teams on conducting and reporting the results of the Synar inspections under the heading "Synar Inspection Protocol."

1. How does the state Synar survey protocol address the following?

a. Consummated buy attempts?

☒ Required

☐ Permitted under specified circumstances (Describe: _____)

☐ Not permitted

b. Youth inspectors to carry ID?

☒ Required

☐ Permitted under specified circumstances (Describe: _____)

☐ Not permitted

c. Adult inspectors to enter the outlet?

☒ Required

☐ Permitted under specified circumstances (Describe: _____)

☐ Not permitted

d. Youth inspectors to be compensated?

☒ Required

☐ Permitted under specified circumstances (Describe: _____)

☐ Not permitted

2. Identify the agency(ies) or entity(ies) that actually conduct the random, unannounced Synar inspections of tobacco outlets. (Check all that apply.)

☐ Law enforcement agency(ies)

☐ State or local government agency(ies) other than law enforcement

☒ Private contractor(s)

☐ Other

List the agency name(s): Benchmark Research & Safety, Inc.

3. Are Synar inspections combined with law enforcement efforts (i.e., do law enforcement representatives issue warnings or citations to retailers found in violation of the law at the time of the inspection?)

☒ Always ☐ Usually ☐ Sometimes ☐ Rarely ☐ Never

4. Describe the type of tobacco products that are requested during Synar inspections.

- a. What type of tobacco products are requested during the inspection?

☒ Cigarettes
☒ Small Cigars
☒ Cigarillos
☒ Smokeless Tobacco
☐ Electronic Cigarettes/Electronic Nicotine Delivery Systems (ENDS)
☐ Other

- b. Describe the protocol for identifying what types of products and what brands of products are requested during an inspection.

Inspecting minors are instructed to request cigarettes whenever an outlet sells cigarettes. For all other businesses that do not have cigarettes (e.g., cigar stores, stores with smokeless only, etc.), the minor is instructed to specifically ask for the product being sold.

- 5a. Describe the methods used to recruit, select, and train adult supervisors.

Idaho inspection teams are made up of two types of adult supervisors: the adult inspector and the chaperone. Adult supervisors are recruited primarily through word of mouth recruiting by existing inspection team members. As necessary, job ads are also placed on popular job boards and in local newspapers. Adult inspectors watch a Power-Point presentation to learn the rules, regulations, basic procedures and paperwork required for the job and are given a hard copy manual to keep with them in the field as a reference. They also receive field training from an experienced inspector before leading an inspection team on their own. Adult chaperones receive a job description that outlines the expectations and duties and field training by the Adult inspectors.

- 5b. Describe the methods used to recruit, select, and train youth inspectors.

Youth inspectors are recruited primarily through word of mouth recruiting of existing inspection team members. As necessary, job ads are also placed on popular job boards and in local newspapers. The minors review the video Teens Taking Action! A Guide to Conducting Tobacco Compliance Checks: Consummated Version. All minors are required to have a valid Idaho driver's license or identification card and are required to respond truthfully when questioned by the clerk. All minors receive field training and feedback from an experienced inspector before beginning inspections.

6. Are there specific legal or procedural requirements instituted by the state to address the issue of youth inspectors' immunity when conducting inspections?

- a. Legal

☒ Yes ☐ No

(If Yes, please describe.)

State statute 39-5703 (4) Possession, Distribution or use by a Minor states, "a minor who is assisting with a random unannounced inspection in accordance with this chapter shall not be in violation with this chapter." This specifically states that minors can purchase and possess tobacco during an inspection.

b. Procedural

☐ Yes ☒ No

(If Yes, please describe.)

7. Are there specific legal or procedural requirements instituted by the state to address the issue of the safety of youth inspectors during all aspects of the Synar inspection process?

a. Legal

☐ Yes ☒ No

(If Yes, please describe.)

b. Procedural

☒ Yes ☐ No

(If Yes, please describe.)

The safety of individuals performing inspections is paramount. Each inspection team consists of two adults (tobacco inspector and inspection assistant) and two minors (one male and one female). This means that minors are not left alone in the car or the store. All minors are supervised by an adult. At the first sign of any conflict (usually verbal) during an inspection, the minor is sent to the car by the adult tobacco inspector. All inspectors have had previous law enforcement experience. Inspectors and minors are encouraged not to enter outlets they perceive as unsafe. The driving records of all inspectors are reviewed, and inspection teams are prohibited from exceeding posted speed limits. New vehicles are used most of the time. Seatbelt use is required. All teams are provided with cellular telephones and are instructed to contact the inspection director or the State Police when circumstances deteriorate. Incidents that jeopardize the safety of the team are forwarded to the Idaho State Police for follow-up.

8. Are there any other legal or procedural requirements the state has regarding how inspections are to be conducted (e.g., age of youth inspector, time of inspections, training that must occur)?

a. Legal

☒ Yes ☐ No

(If Yes, please describe.)

State law requires that all permitted tobacco outlets be inspected at least once per year with additional checks made as a function of the prior year's statewide on-compliance rate. State statute 39-5710, Conduct of Enforcement Actions, states minors can participate in random tobacco inspections with written consent of parent/guardian and they cannot present false identification or make any false statement regarding their age.

b. Procedural

☒ Yes ☐ No

(If Yes, please describe.)

Although not specifically stated in the law, the Idaho Department of Health & Welfare requires all minors to use State of Idaho driver's licenses or identification cards when conducting inspections. The Department also limits the maximum age of the inspectors to 17.75 years.

APPENDIX D: LIST SAMPLING FRAME COVERAGE STUDY

(LIST FRAME ONLY)

State: Idaho

FFY: 2020

1. Calendar year of the coverage study: 2019

2. a. Unweighted percent coverage found: 97.9%
 b. Weighted percent coverage found: %
 c. Number of outlets found through canvassing: 194
 d. Number of outlets matched on the list frame: 190

3. a. Describe how areas were defined. (e.g., census tracts, counties, etc.)

A mutually exclusive and exhaustive map of ZIP codes was used to define the area.

b. Were any areas of the state excluded from sampling?

☒ Yes ☐ No

If Yes, please explain.

Native American Reservations and Mountain Air Force Base ZIP codes were omitted from the population of ZIP codes because the State does not have jurisdiction to conduct enforcement nor permitting in these areas.

4. Please answer the following questions about the selection of canvassing areas.

a. Which category below best describes the sample design? (Check only one.)

☐ Census (Go to Question 6.)

Unstratified statewide sample:

☒ Simple random sample (Respond to Part b.)

☐ Systematic random sample (Respond to Part b.)

☐ Single-stage cluster sample (Respond to Parts b and d.)

☐ Multistage cluster sample (Respond to Parts b and d.)

Stratified sample:

☐ Simple random sample (Respond to Parts b and c.)

☐ Systematic random sample (Respond to Parts b and c.)

☐ Single-stage cluster sample (Respond to Parts b, c, and d.)

☐ Multistage cluster sample (Respond to Parts b, c, and d.)

☐ Other (Please describe and respond to Part b.) _____

b. Describe the sampling methods.

Small ZIP codes were combined to have an estimated 13 to 35 outlets. Urban ZIP codes were divided to have approximately 17 to 25 outlets in each subdivision. Combined ZIP codes, whole ZIP codes, and divided ZIP code were randomly sampled to yield an estimated total of 200.

c. Provide a full description of the strata that were created.

d. Provide a full description of how clusters were formed.

5. Were borders of the selected areas clearly identified at the time of canvassing?

☒ Yes ☐ No

6. Were all sampled areas visited by canvassing teams?

☒ Yes (*Go to Question 7.*) ☐ No (*Respond to Parts a and b.*)

a. Was the subset of areas randomly chosen?

☐ Yes ☐ No

b. Describe how the subsample of visited areas was drawn. Include the number of areas sampled and the number of areas canvassed.

7. Were field observers provided with a detailed map of the canvassing areas?

☒ Yes ☐ No

If No, describe the canvassing instructions given to the field observers.

8. Were field observers instructed to find all outlets in the assigned area?

☒ Yes ☐ No

If No, respond to Question 9.

If Yes, describe any instructions given to the field observers to ensure the entire area was canvassed, then go to Question 10.

Field observers were given specific instructions regarding:

- The purpose of the survey, to locate all businesses that sell tobacco
- The use of detailed highway maps depicted in the border of the sampling area
- How to conduct the street survey in rural (e.g., driving & walking) and urban areas (walking)
- How to record information about businesses identified as tobacco retailers
- Directive to find all tobacco retailers by systematically surveying the sample area
- Expected response to safety threats

9. If a full canvassing was not conducted:

a. How many predetermined outlets were to be observed in each area? _____

b. What were the starting points for each area? _____

c. Were these starting points randomly chosen?

☐ Yes ☐ No

d. Describe the selection of the starting points.

e. Please describe the canvassing instructions given to the field observers, including predetermined routes.

10. Describe the process field observers used to determine if an outlet sold tobacco.

A business was identified as a tobacco retailer if tobacco products were observed by the canvasser or the employee/owner indicated that tobacco products were sold if the products were not readily observed.

11. Please provide the state's definition of "matches" or "mismatches" to the Synar sampling frame? (e.g., address, business name, business license number)

Matches between the findings of field observers and the Idaho Tobacco Permit Database were made based upon corresponding addresses and business information and valid permits. If a business address in the field corresponded with a permittee in the database, but the permit was not active (i.e., not valid for the current year) the combination was considered a mismatch.

12. Provide the calculation of the weighted percent coverage (if applicable).

N/A

State of Idaho
Department of Health & Welfare
Synar Inspection Protocol
written and implemented by
Benchmark Research & Safety Inc.

Assembling the Inspection Team

- ❖ The inspection team will be composed of at least four people:
 - The inspector (at least 25 years of age).
 - A male inspecting teen (15 to 17 $\frac{3}{4}$ years of age)
 - A female inspecting teen (15 to 17 $\frac{3}{4}$ years of age)
 - An adult chaperone. The chaperone must at least 21 years of age and 25 if driving during inspections.

Inspector Qualifications and Training

- ❖ Inspectors must have law enforcement experience.
- ❖ Inspectors must successfully complete the Tobacco Inspection Training program. This CD-ROM based training program provides the basic information needed to safely and efficiently conduct inspections of Idaho's tobacco retailers.
- ❖ Inspectors must also have a current driver's license and vehicle insurance.
- ❖ Inspectors must provide fingerprints for and successfully complete a criminal background check.
- ❖ Upon completion of training, Inspectors will be given a unique ID and number that identifies him/her as an inspector working under the authority of the Idaho Department of Health and Welfare.
- ❖ Inspectors must have this ID with them at all times when conducting inspections.

- ❖ Inspectors are to show this ID to store employees, business owners, or law enforcement officers if asked to demonstrate authority to enforce this law.

Inspecting Teen Qualifications and Training

Teen Qualifications

- ❖ Male and female minors between the ages of 15 and 17 $\frac{3}{4}$ years can participate in inspections.
- ❖ All minors must look their age. Teens that look older or younger than their true age can adversely affect inspection outcomes.
- ❖ When selecting a teen, ensure that he or she is ethnically representative of the area. An area that is predominantly Caucasian should be inspected with Caucasian teens.

Teen Documentation

- ❖ The safety and anonymity of inspecting minors is of the utmost importance. Before teens can be used in any inspection effort, teens and their parents must be informed of the goals, demands, and risks associated with inspections.
- ❖ Before a teen can participate in any inspection activity, the following must be obtained:
 - A copy of the teen's birth certificate
 - A copy of the teen's state issued identification or driver's license. If he or she does not have an ID card, one can be obtained through the local DMV.
 - A current photograph of the teen.
 - A signed Acknowledgement of Risk form
 - A signed Parent/Guardian Release form

The 15-Year-Old Minor Inspectors

- 15-year old Minor inspectors are not used in Idaho due to changes to the federal labor laws.

Teen Training

- ❖ Training for teens is provided via videotape. The tape entitled “Teens Taking Action!” provides teens with the information they will need to perform inspections. Refer to the Teen’s Taking Action! training material for further information.

Chaperone Qualifications and Training

- ❖ Chaperones are provided to ensure the safety of the teen(s) while Inspectors are initiating or completing an inspection. The Chaperone or inspector must accompany teens at all times and should work together to ensure that someone is always with the teens.
- ❖ Chaperones must be at least 21 years of age. Chaperones must be 25 years of age to drive.
- ❖ Inspectors must provide fingerprints for and successfully complete a criminal background check.
- ❖ It is helpful although not required to have a Chaperone of the opposite sex.
- ❖ Chaperones must complete the Inspectors CD-ROM based training program.
- ❖ Chaperones must also have a current driver’s license and vehicle insurance if they intend to drive. See “Using Your Vehicle” or “Renting Cars” sections.

Performing Inspections

Before leaving for inspections

Below is a list of items that should be considered for each member of the team before leaving for inspections. The team should have or take with them the following:

Inspector	Teens	Escort
Identification Driver's license Rental car/ Personal car Proof of insurance Plain clothes Container with: Black ball Pt pen Manual Check forms Citations Notification/Citation Envelopes IDHW Certified mail forms Labels for evidence Polaroid/Film (if applicable) Money Paper clips/tape Time sheets Map & route Copy of the code Cell phone	Identification Photograph Medical release form <i>School clothes</i> Time sheets	Identification Plain clothes

On the way to complete inspections the following should be considered:

- ❖ Review in-store; purchase attempt, and “Did the minor buy?” protocols with minor.
- ❖ Rehearse purchase attempt script with minor.
- ❖ Give sufficient money to minors.

- ❖ The driver should park where the clerk can't see the vehicle, if possible.

In the store (inspector) Protocol

- ❖ Perform a safety check first
- ❖ Leave if conditions are unsafe (mark the Check form accordingly).
- ❖ Keep teen in sight and sound during the purchase attempt.
- ❖ Observe how tobacco is displayed.

In the store (minor) Protocol

- ❖ Do not take Inspection form inside the store.
- ❖ Enter when inspector remains in store.
- ❖ Leave if recognized.
- ❖ Leave if unsafe.
- ❖ Have ID and money ready.
- ❖ Approach counter.

NOTE: If the team has both male and female buyers, only one should be in the business at a time. The minor who enters the business should match the gender specified for the Synar check.

Purchase attempt Protocol

❖ Minor Script:

Minor approaches counter asks,

“Can I get a pack of Marlboros (or other type of Tobacco, e.g. Camels), please?”

IF MARLBOROS ARE UNAVAILABLE:

“Can I get a pack of Camels, please?”

❖ **Minor Response:**

Waits until the clerk asks for ID. If clerk asks for ID, show it. If clerk does not ask for ID, hand money to clerk and complete the purchase. If clerk refuses to sell, exit to vehicle.

- ❖ Other scripts and situations are discussed in the Teens Taking Action! training material.

Did the minor buy? Protocol

YES Minor takes cigarette pack, change, receipt (if offered), and exits to vehicle.

After minor exits, inspector retrieves citation from vehicle and returns to seller.

NO Minor exits to the vehicle. Officer follows minor and exits to vehicle.

Completing the Inspection Form for the No Sale Inspection Protocol

- ❖ Mark appropriate answers on the “YES” sequence of the Inspection Form.
- ❖ Inspector signs and teen initials Inspection Form.
- ❖ Fax Inspection Forms for all inspections to Benchmark the same day or no later than 11 AM the next business day (877-641-4468). Those inspectors who enter their own inspections forms into the database should do so the same day or by the next business day.
- ❖ Mail completed original Inspection Form to Benchmark the same day or no later than 11 a.m. the next business day.

- ❖ NOTE: Incomplete forms (improperly marked, no minor initials, no signature or date, etc.) will be returned for correction. Every attempt should be made to avoid errors.

Completing the Check Form When a Sale was Made Protocol

- ❖ In the store:

Inspectors should take the following steps when the minor purchases tobacco and exits to the vehicle.

- Exit the business and retrieve the seller citation from vehicle.
- Approach seller.
- Identify himself/herself (if necessary show photo ID) and state purpose.
- Issue seller citation, obtain seller information and signature, and give copy to seller. See citation on next page.
- Don't delay in returning to the vehicle.

- ❖ Before leaving the parking lot (move out of eyesight of the inspected business).

- Complete Inspection Form (Chaperone can help in completing the Inspection Form).
- Complete Permit Holder Notification/ Citation (Chaperone can help in completing the Form).
- Label the cigarette pack. Chaperone may help. (See Processing Evidence below).
- Inspector review Inspection Form with teen.
- Inspector signs and teen initials Inspection Form.
- Inspector's signature on all forms verifies accuracy of information.

- ❖ Fax Inspection Forms for all inspections to Benchmark the same day or no later than 11 AM the next business day (877-641-4468). Those inspectors who enter their own inspections forms into the database should do so the same day or by the next business day.

- ❖ Mail completed original Inspection Form to Benchmark the same day or no later than 11 a.m. the next business day.
- ❖ NOTE: Incomplete forms (improperly marked, no minor initials, no signature or date, etc.) will be returned for correction. Every attempt should be made to avoid errors.

Incomplete Inspection Protocol

- ❖ There will be some situations when the inspecting team is unable to complete an inspection of a business. There are a variety of reasons for not completing an inspection. The most common reason is that a business that once sold tobacco no longer does, or is closed. Another reason is that the conditions outside or inside the business are unsatisfactory, that is, the conditions are unsafe.
- ❖ The Check Form lists the most common reasons why a check cannot be completed. These include:
 - Does not sell tobacco
 - Unsatisfactory conditions
 - Out of business
 - Missed hours
 - Denied access due to age restriction
 - Denied access due to membership requirement.
 - Could not locate address
 - Does not exist at specified address
 - Tobacco out of stock
 - Vending machine
 - Duplicate business

- Other

Definitions

- Does not sell tobacco: The business does not sell tobacco products.
- Unsatisfactory conditions: The business could not be inspected because it was unsafe or the minor or inspector would be recognized by clerk.
- Out of business: The business was located but has permanently closed.
- Missed store hours: The establishment is open for business but was closed. Please indicate operating hours in the comments section.
- Denied access: Select the option that best describes why access was denied.
- Could not locate address: The specified address could not be located.
- Does not exist at specified address: The specified business does not exist at the listed address.
- Tobacco out of stock: The business sells tobacco but is currently out of stock.
- Vending machine: Tobacco products are sold through a vending machine.
- Duplicate business: This inspection form is a duplicate.
- Other: List all other conditions that prevented the inspection.

- ❖ Mark the appropriate condition. If the conditions are unsatisfactory, indicate why in the comments section. Most importantly, indicate when the conditions might be satisfactory. For example, a business might be okay if it was inspected earlier in the day.
- ❖ If the business is closed, write the hours or months it is open in the comment box.

- ❖ At an age-restricted business, the minor may be refused entrance. If refused, properly indicate on the “no” side of the inspection form. Use Comment box on the Check Form if necessary.

Finishing the Paperwork Protocol

- ❖ Mail Permit Holder Notification/Citation via certified mail to the permit holder (found on Inspection Form) the same day or no later than 11 AM the next business day.
- ❖ Fax Inspection Forms for all inspections to Benchmark the same day or no later than 11 AM the next business day (877-641-4468). Those inspectors who enter their own inspections forms into the database should do so the same day or by the next business day.
- ❖ Mail the Original items listed below to Benchmark the same day or no later than 11 a.m. the next business day.
 1. Completed Inspection Forms
 2. Copy of seller citation
 3. Copy of Permit Holder Notification/ Citation
 4. Photographs of the minors (if not done electronically)
 5. All evidence.

Processing Evidence Protocol

- ❖ Before leaving the parking lot (assuming the location is safe to do so), mark the evidence with a label as follows: Provide the permit number of the inspected business, the inspectors first and last initials, the inspectors ID number, and the date and time of the inspection. The diagram below provides an example case number written on a label.

Permit No.	Inspectors's first & last initials	Inspector ID No.
1234	JM	210010
Permit No.	Initials	Inspector No.
06/12/01	1430

Instructions

FORMS WITH INCOMPLETE INFORMATION WILL NOT BE PROCESSED.

USE ONLY BLACK BALLPOINT PEN. Forms using felt tip markers, roller ball pens, or pencils cannot be processed. THIS FORM IS A LEGAL DOCUMENT. All results must be entered by the inspector immediately after the check is completed. To correct errors, draw a SINGLE LINE through the error, enter the correct information, and initial and date the change. DO NOT use whiteout or erase any information.

For optimum accuracy, use capital letters and avoid contact with the edge of the box.

Shade circles like this:  Not like this:  If you make an error filling in a circle, cross it out with a single line, write "error" next to it, and initial, then fill in the correct circle.

1. **Date of Check:** Enter the date the inspection was attempted or performed. Provide the month (mm) / day (dd) / and 2 digit year (yy).
2. **Was a purchase attempt made?** : Different types of information are needed depending on the outcome of the inspection attempt.

Yes

Clerk gender: Was the clerk male or female?
Was minor's ID requested?: Did the clerk ask for the ID?
Was the minor asked age?: Did the clerk ask the minor's age?
Did the clerk sell?: Was the sale completed?
Did you observe attempt?: Did you witness the sale to the minor?
Attempted product: What type of tobacco product did you attempt to purchase?
Brand of product attempted: What brand of product did the minor attempt to purchase or successfully purchase?
Tobacco placement: Mark the descriptor that best describes where tobacco was located within the business.
Tobacco was: (mark only those that apply)
Self-service: The minor was able to pick up the tobacco without asking a store employee for assistance.
Non-vendor assisted sales: The customer is given the tobacco product at any time before payment, e.g. The customer receives the tobacco product from one clerk and takes it to another clerk for purchase.
Open packages, samples or free tobacco products: Individual cigarettes/cigars are on display AND are not in original package. Tobacco products are available for free, EXCEPT when packaged together with purchased tobacco, e.g. Buy two get one free (all packaged together).
Vending Machine: A vending machine, stocked with tobacco AND able to accept money, is anywhere on the premises.

No

Does not sell tobacco: The business does not sell tobacco products.
Unsatisfactory conditions: The business could not be inspected because it was unsafe or, the minor or inspector would be recognized by the clerk.
Out of business: The business was located but has permanently closed.
